

## Psalm 69 • Christ on the Cross

---

1. (v.1-4) We are presented with a glimpse into the true experience on the **cross**, of Christ interceding on behalf of everyone even though everyone **rejected** Him and was **against** Him.
2. (v.5-12) Christ's rejection was complete within His **family**, **society**, and every **nation**, discounting not just His **message** but His **works**.
3. (v.13-15) The working of **salvation** through the cross is actually a physical confirmation of the **power** and **truth** of God's **Word**.
4. (v.16-19) Even in the midst of the crucifixion experience, Christ's greater concern is for His **relationship** with the Father and that His **redemption** would serve as an example to even those most aggressively **rejecting** Him personally.
5. (v.20-21) The work of the cross is not limited to simply dealing with the issue of **sin**, but at the time it took place represents the complete **rejection** of Christ on every level by everyone present.
6. (v.22-28) The consequences for rejecting Christ are experienced by both the **individual** and **nations** at large. The consequence they experience in the course of this life are merely a **shadow** of the more dire consequences to follow in **eternity**.
7. (v.29-33) Everything changes through the prism of the cross: the **Law** is fulfilled, the **offerings** and **sacrifices** are fulfilled, and the **heart** is changed from a servant of **death** to a servant of **Life**.
8. (v.34-36) The work of "Judah" and "Zion" speaks of what is yet to come in the **Millennial Kingdom**.
